

Budget, Precept and Council Tax Charges for 2023/24

13 December 2022

NOTE: The generally accepted recommendation with regard to the minimum level of a Smaller Authority's General Reserve is that this should be maintained at between 3 and 12 months Net Revenue Expenditure (NRE). NRE (subject to any planned surplus or deficit) is effectively Precept less: any Loan Repayment and/or amounts included in Precept for Capital Projects and transfers to Earmarked Reserves. The reason for the wide range is to cater for the large variation in sizes of individual authorities. The smaller the authority the closer the figure should be to 12 months NRE, the larger the authority the nearer to 3 months. In practice, any authority with an NRE in excess of £200,000 should plan on 3 months. In all of this it is important that each authority adopt, as a General Reserve policy, the level appropriate to their size and situation and plan their Budget so as to ensure that the adopted level is maintained. Changes in activity levels/range of services provided will inevitably lead to changes in the requisite minimum level of General Reserve in order to provide working capital for those activities.
